

# PMETB/COPMeD National Survey

## of Trainee Doctors 2008/09

### Briefing Note 4: Response Rate Tables

#### 1. Available tables

The *Trainee Survey 2008 Responders* table is now available here:

<http://reports.pmetb.org.uk/TableDownload.aspx>

By logging in here:

<http://reports.pmetb.org.uk/SiteLogin.aspx>

This table lists all respondents we have in the database for your deanery. Trainees who have responded to this year's survey will have a reference number in the Reference column. Trainees will receive a reminder from the database if they have not responded by the DateToComplete. As such please check the DateToComplete and LastSentDate before taking any local action. The table is correct as of the day before you download it. It will be updated every week day. Please note that we still have to upload records we have queried with you. If you need a log-in please email [daniel.smith@pmetb.org.uk](mailto:daniel.smith@pmetb.org.uk), only named deanery contacts can have a log-in.

The following tables are available to all; no log-on is required:

Trainee Survey 2008: Response rates by location

*Trainee Survey 2008: Response rates by deanery*

*Trainee Survey 2008: Response rates by deanery and specialty*

The tables will be correct as per the day before you download. The tables will be updated every week day. It is possible for the number of trainees who selected a given location or specialty, to be greater than the number declared by the deanery and if this is the case, this will produce a response rate that is greater than 100%.

#### 2. Queries

To help manage the volume of queries and ensure everything is answered please raise queries using this form:

[http://forms.pmetb.org.uk/ShowForm.asp?fm\\_fid=42](http://forms.pmetb.org.uk/ShowForm.asp?fm_fid=42)
