

## National Survey of Trainers 2007/8 - Briefing Note 4

**31 January 2008**

### Closing the survey

This note is intended for all deanery survey contacts and contains all the information needed with regard to the close of the National Survey of Trainers 2007/8. The response rates so far are also given by deanery, if you have any amendments to emails please send them to [trainer.survey@pmetb.org.uk](mailto:trainer.survey@pmetb.org.uk). We would like to take this opportunity to thank you for your time and effort.

Please direct and queries or comments to [trainer.survey@pmetb.org.uk](mailto:trainer.survey@pmetb.org.uk)

### GP Trainer email errors and corrections - deadline

The deadline for amendments to existing emails and additional GP trainer emails not previously listed is 12pm Wednesday 5 February. It will not be possible to include people after this date. Some deaneries have not responded to the Excel files we have sent out which include details of email addresses for which we received error messages. If this applies to your deanery then please check and return as a soon as possible.

### Consultant survey access codes

Please note that all deanery nominated contacts have been emailed with the survey link and an access code, one per trust, to cascade on to all consultants. The different codes provided are for internal tracking and can be used across trusts. If you require an access code to provide to consultants please contact [trainer.survey@pmetb.org.uk](mailto:trainer.survey@pmetb.org.uk)

### Close of the survey

The survey itself will stay open until mid-February to ensure everyone has a chance to complete it.

## Response rates

Please find below the number of consultant returns by deanery (Table 1) and the response rates for the GP trainer survey route (Table 2). Table 3 show the sites where we suspect that the email cascade has not occurred and thus the survey has not been launched, or that very few responses have been received. These locations that require further attention have been defined as having a response rate of less than 10% and a head count of more than 100. The head count was obtained using workforce census data.

### Notes

*N* is the number of completed returns received (i.e. submitted as of 30 Jan 2008).

*Exc* are the number of cases excluded (email address changed, respondent not eligible for the survey due to maternity leave etc).

*Denom* is based on all the email addresses we have in the database for the deanery; it is not the true denominator as some deaneries have not supplied a full list of trainees, so for these deaneries the response rate may well drop.

**Table 1: Consultant returns by deanery – as at 11.30am on 31 January**

<b>Deanery</b>	<b>N</b>
East of England Deanery	391
Kent, Surrey & Sussex Deanery	261
